

Cellular and Molecular Neurobiology publishes original research articles concerned with the analysis of neuronal and brain function at the cellular or subcellular levels. The journal welcomes articles utilizing anatomic, genetic, physiologic, pharmacologic, or biochemical approaches to the study of neuronal function and oriented to the analysis of elementary mechanisms. Studies of isolated mammalian tissues, and intact animals, with investigation aimed at the cellular mechanisms or neuronal responses at the level of single cells, are accepted for publication. The journal also presents studies of the effects of neurons on other organ systems, such as analysis of the electrical or biochemical response to neurotransmitters or neurohormones on smooth muscle or gland cells.

Figure: Pyramidal cell neuron filled with horseradish peroxidase from the cortex of cat. Courtesy of Dr. Charles D. Woody.

EDITOR

Man M. Saavedra, National Institute of Mental Health, Bethesda, Maryland

ASSOCIATE EDITOR

Gregor Sutcliffe, Scripps Clinical and Research Foundation, LaJolla, California

EDITORIAL ADVISORS

Julius Axelrod, National Institute of Mental Health, Bethesda, Maryland

David O. Carpenter, New York State Department of Health, Albany, New York

Marshall Nirenberg, National Institutes of Health, Bethesda, Maryland

EDITORIAL BOARD

Cellular Neurobiology

Leon X. Albuquerque, University of Maryland, Baltimore, Maryland

Go Arechiga, Instituto Politecnico Nacional, Mexico City, Mexico

David A. Brown, University College, London, London, England

Don Connor, Bell Laboratories, Murray Hill, New Jersey

Permar Engberg, University of Aarhus, Aarhus, Denmark

Ter W. Gage, Australian National University, Canberra, Australia

Frederic S. Goodman, Stanford University, Stanford, California

Immut Haas, Neurochirurgische Universitätsklinik, Zurich, Switzerland

Richard Hammerschlag, Beckman Research Institute, Duarte, California

Niel Johnston, Baylor College of Medicine, Houston, Texas

Leif Khodorov, Vishnevsky Surgery Institute, Moscow, USSR

Bert L. Macdonald, University of Michigan, Ann Arbor, Michigan

Lev Magaznik, Academy of Sciences of the USSR, Leningrad, USSR

Cellular and Molecular Neurobiology is published quarterly at 1 Alanbrooke Road, Belfast BT6 9HF, Northern Ireland, by Plenum Publishing Corporation, 233 Spring Street, New York, N.Y. 10013. In 1988, Volume 8 (4 issues) will be published. Subscription orders should be addressed to the publisher. *Cellular and Molecular Neurobiology* is abstracted or indexed in Beck Medical Information, Biological Abstracts, Chemical Abstracts, Current Awareness in Biological Sciences, Current Contents, and Excerpta Medica. © 1988 Plenum Publishing Corporation. *Cellular and Molecular Neurobiology* participates in the Copyright Clearance Center (CCC) Transactional Reporting Service. The appearance of a code line at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use. However, this consent is given on the condition that the copier pay the flat fee of \$6.00 per copy per article (no additional per-page fees) directly to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, Massachusetts 01970, for all copying not explicitly permitted by Sections 107 or 108 of the U.S. Copyright Law. The CCC is a nonprofit clearinghouse for the payment of photocopying fees by libraries and other users registered with the CCC. Therefore, this consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, nor to the reprinting of figures, tables, and text excerpts. 0272-4340/88 \$6.00

Subscription rates:

Volume 8, 1988 (4 issues) \$160.00 (outside the U.S., \$178.00). Price for individual subscribers certifying that the journal is for their personal use, \$35.00 (outside the U.S., \$41.00).

Volume 9, 1989 (4 issues) \$185.00 (outside the U.S., \$215.00). Price for individual subscribers certifying that the journal is for their personal use, \$39.50 (outside the U.S., \$47.00).

CONTENTS

Special Issue: Tribute to Julius Axelrod on the Occasion of His 75th Birthday (Part I)

REVIEWS

- The Inositol Trisphosphate Receptor: A Potpourri of Second-Messenger Regulation 1
Solomon H. Snyder, Surachai Supattapone, Sonye Danoff, Paul F. Worley, and Jay M. Baraban
- Presynaptic Regulation of Dopaminergic Transmission in the Striatum 7
J. Glowinski, A. Chéramy, R. Romo, and L. Barbeito
- Molecular Mechanisms of Exocytosis: The Adrenal Chromaffin Cell as a Model System 19
Warren J. Strittmatter
- Phenol Sulfotransferase Inheritance 27
Richard Weinshilbourn
- Nerve Growth Factor: Cellular Localization and Regulation of Synthesis 35
Hans Thoenen, Christine Bandtlow, Rold Heumann, Dan Lindholm, Michael Meyer, and Hermann Rohrer

COMMENTARIES

- Neurotransmitter Enzyme and Receptor Regulation: A Look Back 41
Roland D. Ciaranello
- Regulation of Carboxypeptidase H by Inhibitory and Stimulatory Mechanisms During Neuropeptide Precursor Processing 49
Vivan Y. H. Hook
- Radioimmunochemical Methods for the Quantitative Autoradiographic Determination of Antigens in Brain and Other Tissues 57
Fernando M. A. Correa, Simone S. Guilhaume, and Juan M. Saavedra

ARTICLES

- Substrates for Adenosine 3',5'-Monophosphate (cAMP)-Dependent Protein Kinase in the Rat Pituitary Gland 71
Yoshihiro Furuki, Toshifumi Yamamoto, Simon Guild, and John W. Keabian
- Monoclonal Antibodies to Human Brain Acetylcholinesterase: Properties and Applications 85
Zoltan Rakonczay and Stephen Brimijoin
- Protein-Carboxyl Methylation in Adrenal Medullary Cells 95
C. Gagnon, K. Veeraragavan, and R. Coulombe
- Participation of Protein Kinase C and Regulatory G Proteins in Modulation of the Evoked Noradrenaline Release in Brain 105
Georg Hertting and Clemens Allgaier
- Effects of Trypsin on Secretion Stimulated by Micromolar Ca^{2+} and Phorbol Ester in Digitonin-Permeabilized Adrenal Chromaffin Cells 115
Ronald W. Holz and Ruth A. Senter
- Dual Regulation of ACTH Secretion by Guanine Nucleotides in Permeabilized AtT-20 Cells 129
Alberto Luini and Maria Antonietta De Matteis
